Certified Coding Specialist
Associated Industries: Business, Management, & Administration | Health Science

Description and Labor Market Information
Certified Coding Specialists (CCS) are skilled in classifying medical data from patient records, often in a hospital setting but also in a variety of other healthcare settings. A CCS credential demonstrates a practitioner's tested skills in data quality and accuracy as well as mastery of coding proficiency.

This credential was associated with 5 occupations that were identified as well-paying and in demand. Overall, those occupations represent 9,330 positions with 925 annual openings within the state and median hourly earnings of $24.98.

Sample Occupations

Medical Records and Health Information Technicians
Median Hourly Earnings: $22.60
Typical Entry Level Education Requirement: Postsecondary nondegree award
Total Positions: 728
Annual Job Openings: 55

Accountants and Auditors
Median Hourly Earnings: $29.47
Typical Entry Level Education Requirement: Bachelor's degree
Total Positions: 5,079
Annual Job Openings: 489

Billing and Posting Clerks
Median Hourly Earnings: $19.76
Typical Entry Level Education Requirement: High school diploma or equivalent
Total Positions: 1,282
Annual Job Openings: 148

Local Availability: Pearson Vue

Exam Details
Age Requirement: N/A
Coursework/Hours to Complete: Some coursework and work experience required
Length of Certification Validity: 2 years
Exam Cost: $399
Exam Time: 4 hours
Number of Questions: 115 and 140
Pass Rate: 80%
PROMISING CREDENTIALS IN HAWAI‘I

This project has been a joint effort between Kamehameha Schools, the Chamber of Commerce Hawai‘i, University of Hawai‘i P-20, and the Harold K.L. Castle Foundation.

Students in Hawai‘i can earn hundreds of industry-recognized credentials right now. Thousands of students are investing time and resources to achieve these credentials with the hope they will lead to a career that enables them to live and thrive in Hawai‘i. But how effective are these programs at preparing Hawai‘i students for future careers and long-term success?

Promising Credentials in Hawai‘i, a first-of-its-kind analysis for our state, looks at whether the credentials students can earn actually matter in the real world to local employers.

Through intensive labor market analysis and outreach to local Hawai‘i businesses, this project has identified 137 Promising Credentials that are associated with in-demand, living wage occupations throughout the state. The process began with identifying 274 Promising Occupations that met wage and demand thresholds. A list of corresponding credentials for the 274 occupations was then compiled using job postings data. Finally, Hawai‘i employers from across the state completed surveys and participated in focus groups to narrow the list of nearly 2,000 credentials down to the 137 credentials they say matter most when making hiring and promotion decisions.

The resulting Promising Credentials were identified as relevant in hiring and promotional decisions for multiple in demand and well-paying occupations within the state. A detailed one-page summary of each of these Promising Credentials has been organized for student, school, and community use.

The comprehensive report and associated data can be found at www.HawaiiCareerPathways.org.
