HAZWOPER

Description and Labor Market Information
HAZWOPER certifications are intended for workers likely to be exposed to hazardous waste operations. There are multiple certification levels, 8-hr., 24-hr., and 40-hr., depending on likelihood of exposure.

This credential was associated with 16 occupations that were identified as well-paying and in demand. Overall, those occupations represent 31,854 positions with 3,860 annual openings within the state and median hourly earnings of $28.87.

Sample Occupations

*Environmental Science and Protection Technicians*
  - Median Hourly Earnings: $21.83
  - Typical Entry Level Education Requirement: Associate's degree
  - Total Positions: 210
  - Annual Job Openings: 26

*Environmental Scientists and Specialists*
  - Median Hourly Earnings: $32.46
  - Typical Entry Level Education Requirement: Bachelor's degree
  - Total Positions: 691
  - Annual Job Openings: 77

*First-Line Supervisors of Construction Trades and Extraction Workers*
  - Median Hourly Earnings: $39.62
  - Typical Entry Level Education Requirement: High school diploma or equivalent
  - Total Positions: 3,165
  - Annual Job Openings: 368

Exam Details

| Age Requirement: | N/A |
| Coursework/Hours to Complete: | 8 to 40 hours |
| Length of Certification Validity: | 1 year, renew with annual 8-hour training |
| Exam Cost: | $69 to $305 |
| Exam Time: | N/A |
| Number of Questions: | N/A |
| Pass Rate: | N/A |
This project has been a joint effort between Kamehameha Schools, the Chamber of Commerce Hawai‘i, University of Hawai‘i P-20, and the Harold K.L. Castle Foundation.

Students in Hawai‘i can earn hundreds of industry-recognized credentials right now. Thousands of students are investing time and resources to achieve these credentials with the hope they will lead to a career that enables them to live and thrive in Hawai‘i. But how effective are these programs at preparing Hawai‘i students for future careers and long-term success?

**Promising Credentials in Hawai‘i**, a first-of-its-kind analysis for our state, looks at whether the credentials students can earn actually matter in the real world to local employers.

Through intensive labor market analysis and outreach to local Hawai‘i businesses, this project has identified **137 Promising Credentials** that are associated with in-demand, living wage occupations throughout the state. The process began with identifying **274 Promising Occupations** that met wage and demand thresholds. A list of corresponding credentials for the 274 occupations was then compiled using job postings data. Finally, Hawai‘i employers from across the state completed surveys and participated in focus groups to narrow the list of nearly 2,000 credentials down to the 137 credentials they say matter most when making hiring and promotion decisions.

The resulting Promising Credentials were identified as relevant in hiring and promotional decisions for multiple in demand and well-paying occupations within the state. A detailed one-page summary of each of these Promising Credentials has been organized for student, school, and community use.
